

EX.NO:01

Car Booking Reservation System Using Zoho One (SaaS)

Aim

To create a **Car Booking Reservation System** using **Zoho One** as a cloud-based Software as a Service (SaaS) application.

Procedure:

1. Log in to the **Zoho One cloud platform** using valid credentials.
2. Open **Zoho Creator** from the Zoho One application dashboard.
3. Create a new application named **Car Booking Reservation System**.
4. Create a new form titled **Car Booking Reservation**.
5. Add the required fields such as **From, To, Rental, Outstation, Package Type, and Hours/Days**.
6. Configure appropriate **field types** for each input field.
7. Set suitable **mandatory fields** to ensure important booking details are entered.
8. Customize and arrange the form layout for **easy and user-friendly interaction**.
9. Add suitable **validation rules** to avoid incorrect or incomplete booking information.
10. Save the form and **publish the application** in Zoho Creator.
11. Enter sample **customer and cab booking details** into the form.
12. Submit the booking form and check whether the data is **stored successfully in the cloud**.
13. View and verify the submitted booking records in the **Zoho Creator database**.
14. Test the application using **different types of booking details and package options**.
15. Check the system for **errors, incorrect entries, and proper data storage**.
16. Verify that the **Car Booking Reservation System works successfully as a cloud-based SaaS application**.

Implementation

Input:

The screenshot shows the 'Book a Cab' form in the Zoho Creator application. The form is titled 'Book a Cab' and is located in the 'Bharath' application. The form fields are as follows:

- Customer Name * (First Name, Last Name)
- Employee ID *
- Email Id *
- Mobile Number * (+91 81234 56789)
- Gender * (Male, Female)
- Booking Date * (01-Oct-2026)
- Travel Date * (dd-MMM-yyyy)
- Pickup Time * (-Select-)
- Pickup Address * (Address Line 1, Address Line 2, City / District, State Province, Postal Code, Country)
- Destination Address *

Output:

The screenshot shows the 'Bookings' table in the Zoho Creator application. The table has the following columns: Customer Name, Employee ID, and Email Id. The table contains one record:

Customer Name	Employee ID	Email Id
Dony Bharath D	1924L260001	donybharath79@gmail.com

The table is titled 'Bookings' and is located in the 'Bharath' application. The table is showing 1 of 1 records.

Overview

Customer Name	Dony Bharath D
Employee ID	1924L260001
Email Id	donybharath79@gmail.com
Mobile Number	+919042127199
